ZÜRICH | SWITZERLAND

SEPTEMBER 27<sup>TH</sup>, 2019  
SAN FRANCISCO | CALIFORNIA

OPAL-RT empowers engineers and researchers with accessible, cutting-edge, real-time simulation technology to accelerate the design and the development of better products and more reliable energy transmission. We strive to inspire you to innovate beyond the ordinary to become pioneers in your industries.

Since 1997, industries including automotive, aerospace, power electronics and power generation have increasingly turned to OPAL-RT, making the company a world leader in real-time simulation and Hardware-In-the-Loop (HIL) testing equipment for electrical, electro-mechanical and power electronics systems.

At our 1<sup>st</sup> biennial Local Conference on real-time simulation, we invite you to come explore trends in real-time simulation, hear inspiring success stories, attend exciting presentations and meet OPAL-RT's experts, all while networking with other creative minds, sharing your knowledge and shaping the future of the industry.

## THANK YOU FOR SUPPORTING US LAST YEAR!

"RT18 was for us the opportunity to meet with engineers from the Opal-RT community. We had very exciting exchanges about new applications of Hardware-in-the-Loop testing for power electronic applications. We're

"RT18 in Paris was another not-to-be missed opportunity to gain insight and share thoughts with leaders in the industry. The event hosted centrally in Europe opened up additional regional mindshare with those focused on cyber as well as providing a platform to showcase our cyber-physical solution to a broader international audience. RT18 also enabled us to interact directly with end users to perform live demonstrations of our latest capabilities which lead to the chance of having a more comprehensive discussion leading to qualified opportunities. In addition to

## SEIZE THE OPPORTUNITY & BECOME A SPONSOR!

**MEET** with OPAL-RT users from around the world, and learn the best practices in Model-based Design, Real-Time Simulation, HIL and RCP.

**CONNECT** directly with OPAL-RT developers and product managers to help drive future OPAL-RT product development.

**DISCOVER** our latest technological innovations and concrete applications.

**PRESENT** your activities to a highly focused group of engineers and researchers.

**BE PART OF** the user community; discuss and exchange best practices.

**BUILD** strong partnerships with a network of internationally renowned universities, research centers and international companies.
