**ELECTRIFYING THE WORLD
BEYOND REAL TIME**

NOVEMBER 6
California, United States

ABOUT RT24

ELECTRIFYING THE WORLD BEYOND REAL TIME.

OPAL-RT's 16th annual conference on real-time simulation will take place in the vibrant city of Los Angeles, California on November 6, 2024. RT24 will feature a range of hands-on workshops, keynote, and technical sessions covering a wide range of topics including current and future electrification of the Aerospace & Defense market.

The conference will also offer a unique opportunity for attendees to network and socialize with their peers, see cutting-edge demonstrations, and learn from industry leaders. It will provide attendees with the knowledge, skills, and connections they need to **advance their careers and stay up-to-date with the latest advancements in real-time simulation.**

The slogan "**Electrifying the World Beyond Real Time**" reflects the essence of RT24's commitment to fostering an environment that encourages innovation and that will help the world build better and more sustainable solutions. Whether you're an expert or a newcomer to the field of real-time simulation, RT24 is the perfect conference to take your ideas to the next level and energize your career.

WHO SHOULD ATTEND?

RT24 welcomes anyone who is in the development of anything that flies or goes into space that has an interest in the role of HIL testing or has a need of HIL testing.

HIL is well known. How it can help you achieve your testing and certification goals faster, not as much. Join us to learn more about it and find the answers to your questions on testing in real-time the design and validation of electrical, power electronics, and mechanical systems found in today's vehicles, aircraft, and industrial applications.

AEROSPACE & DEFENCE

- More Electrical Aircraft (MEA)
